## Slide 1

---

**A1** A healthy urban forest is one that has the right tree in the right place but also a great diversity of tree species and ages of those species, distributed evenly throughout a community.

**Xeriscape**

# Bad tree work

These trees have been topped...

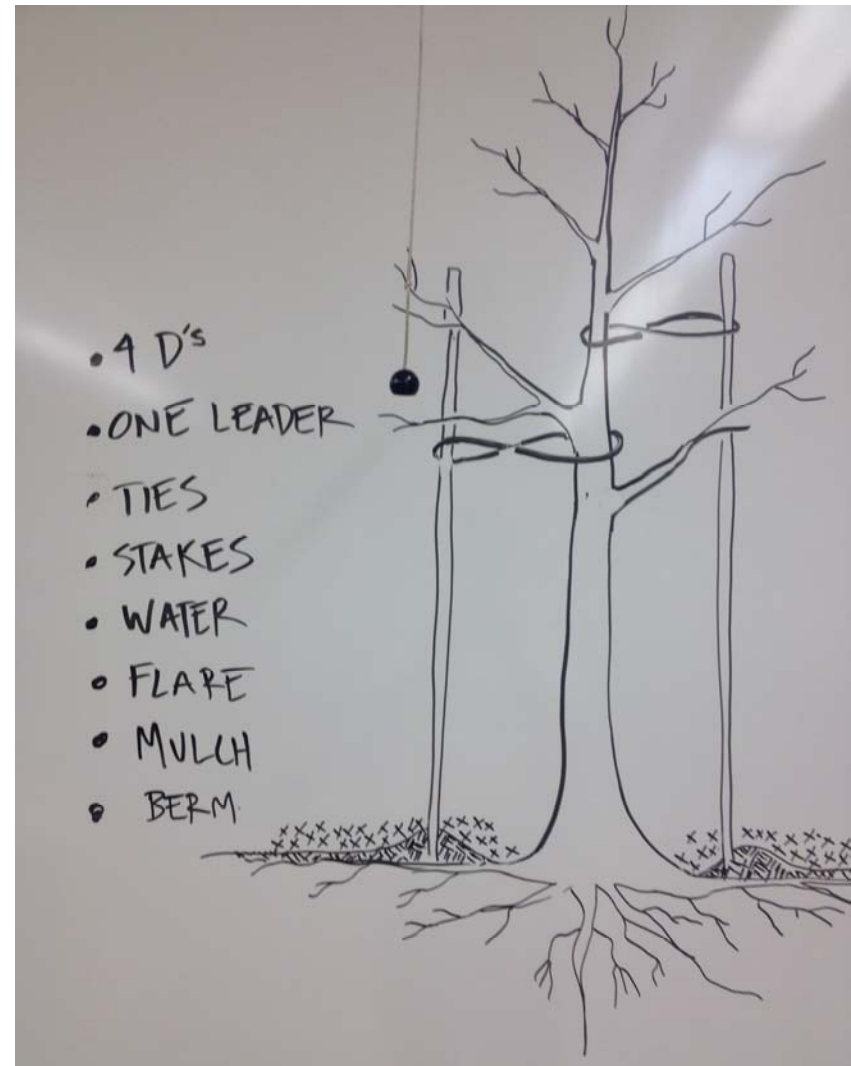

# No safety

This can easily become a serious incident

# Education

- Los Angeles City College Spanish and English classes on arboriculture
- WCISA Spanish Education Committee
- Developed the Arborist Apprenticeship curriculum for the Certified Tree Worker Climber Specialist

# Volunteer

- Promote Arboriculture as a career at events like:
- Career Day
- Earth Day
- Tree Plantings
