

LA URBAN CENTER

LOS ANGELES CENTER
FOR URBAN NATURAL
RESOURCES SUSTAINABILITY

Facilitated Session

August 11, 2016

LA RESEARCH HUB

*Climate Change
Urban Waters
Green Infrastructure
Forest Health
Environmental Justice
Human Health
Science of Science Delivery*

Urban natural resources sustainability

Tree stewardship, health, & longevity

Air & water quality

Green infrastructure & urban planning

Climate change

PART 1:

Please place the sticker next to your top two priorities for research.

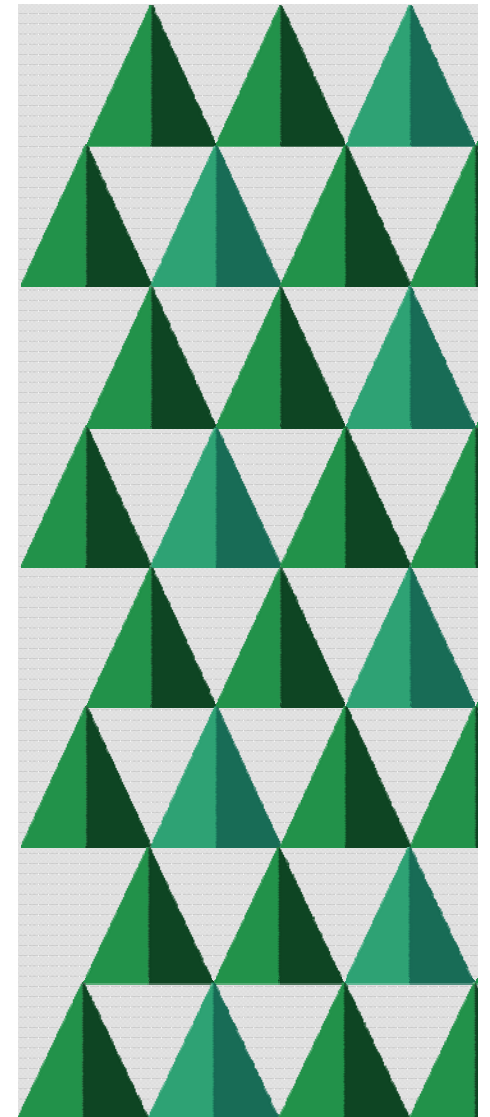

Species Selection & Capacity

Sustainable Planning Indicators

Cost Benefit Accounting

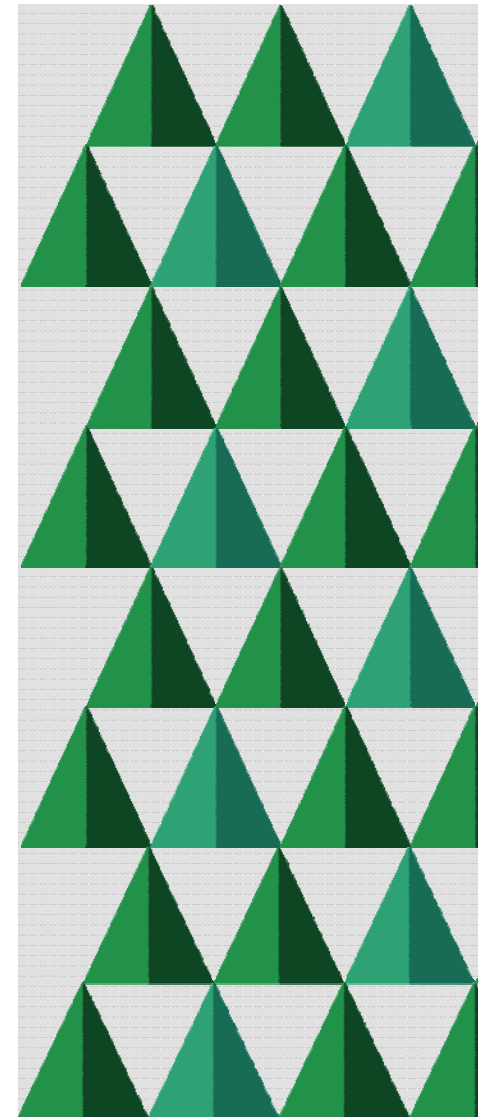

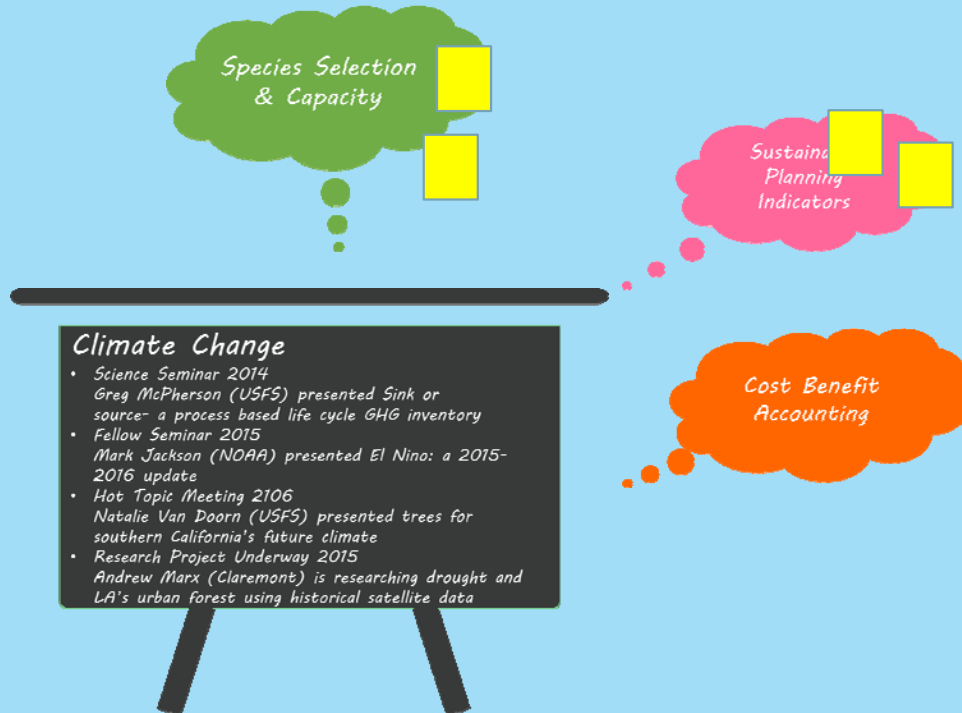

Climate Change

- *Science Seminar 2014*
Greg McPherson (USFS) presented Sink or source- a process based life cycle GHG inventory
- *Fellow Seminar 2015*
Mark Jackson (NOAA) presented El Nino: a 2015-2016 update
