

California ReLeaf Grant Programs 2022 Prop 68 - Relief through ReLeaf Data & Final Report

Signature

Grantee

Grant Agreement #

Reporting Date (mm/dd/yyyy):

Reporting Individual:

Email Address:

Phone Number:

How many trees were planted?

Total Bond funds expended:

Of these, how many were replacements?

Total match funds expended:

Total number of other plants?

Total funds expended (1+2 above) :

Attach a final list of trees planted by species for this project. An XY Coordinate (lat/long.) and address (if applicable) must be provided for each tree.

Describe the maintenance plan for all grant-funded trees planted during the next three years:

Total number of volunteers engaged

Total number of volunteer hours

Describe the primary role(s) volunteers played in this project:

Total number of jobs created

Total number of jobs retained

Describe the jobs created or retained. Did these jobs occur in DACs? Will they continue after the grant is completed?

Please indicate what co-benefits and deliverables the project had during the project period by checking the box below. Describe/quantify the co-benefits in the box below.

- Public health benefits.
- Reduced vehicle miles travelled.
- Air quality improvement.
- Publications produced/web pages created, or other related materials.
- Policies Improved
- Stormwater runoff reduced and/treated.
- Individuals trained. Indicate if certificate earned.
- Other benefits/deliverables: describe and/or quantify below to the best of your ability.

In all cases below, please indicate if the census tract is in an SDAC, a DAC, or neither per the DWR DAC Mapping tool: <https://gis.water.ca.gov/app/dacs/>

List the census tract numbers of where all trees were planted.

List the census tract numbers of staff and stipend-based personnel supported by these grant funds that live in a DAC.

List the census tract numbers of staff and stipend-based personnel supported by these grant funds that live in a SDAC.

Part II: NARRATIVE

In a separate document, provide a 2-3 page summary of your project that addresses the following questions:

1. How did the project improve the communities served and help build resiliency in the face of extreme climate conditions?
 2. How were any educational components of the project executed, and what were the outcomes?
 3. How did the project explicitly address the needs in the serviced areas as applicable?
 4. How will this project affect future urban forestry efforts in the community?
 5. What were the challenges faced and overcome?
-

Part III: Submitting the Final Report

Use the checklist below to ensure you've included all necessary material before submitting your Final Report.

On or before January 20, 2023, e-mail one copy with all attachments to grantadmin@californiareleaf.org

Additionally, mail one hard copy with all attachments to:

California ReLeaf
2115 J Street, STE 213
Sacramento, CA 95816

- Signed copy of the California ReLeaf Final Report PDF document
- All fillable form boxes completed on Final Report PDF document
- Narrative on the project between 2-3 pages
- Pictures and other illustrative materials
- Project maps showing completed tree-planting areas
- Completed cumulative tree-planting Excel form
- Additional attachments as appropriate (i.e. education materials, media coverage, publications)
